

Your deal flow, upgraded.

AI-screened. Calibrated. Human-in-the-loop. Every deal pre-analyzed before it reaches your desk.

THE PROBLEM

Volume overload

200+ decks a month. You deeply evaluate maybe 5 — the rest get a gut-check pass.

AI-polished noise

Every deck sounds amazing. You can't tell what's real from what's generated.

Depth doesn't scale

Real diligence is artisanal — weeks per deal, and partner attention is scarce.

The best deals hide

Your next 10x return is sitting in the cold pile you never opened.
